### Reference Letter

Our company Qair Polska Sp. z o. o. has been using products of BAKS Kazimierz Sielski on following project:

- Photovoltaic power plant with 3x0,990MW power installed in Pastewnik (dolnoslaskie province)

The scope of supply was deliveries of photovoltaic panels mounting systems manufactured in construction steel with Magnelis zinc coating. Professional trained employees provide full technical support and advice for the project and daily sales.

The experience of our co-operation with BAKS, shows that the company is reliable partner, keeping the commitments undertaken. BAKS always supply best quality solutions in agreed time.

Based on the relationship developed with BAKS, I would have no hesitation I commending BAKS for consideration for future projects.
